Gary,

I will contact our towing company to retrieve these units. Early next week should not be a problem. I'll let you know as soon as I get confirmation. Please see the attached cleaning certificates you requested. I can't remember if I sent you one for the first one we picked up back in November, so I attached it as well.

Thank you,

Rube Fernandez

Ruben:

We have 3 of your Frac Tanks ready to be picked up. The other one, FT30335, still has material in it and is the one that has no axle or wheel. I would like to get you to pick these up early next week. Again, you will need to provide a final cleanout and a copy of the cleaning certificate.

Also, please send me the copies of the cleaning certs for the previous ones:

FT215005

FT33529

The Original One you guys picked up.

Thanks

Gary Moore
